Hey David,

No problem at all, I appreciate the flexibility on the presentation dates.

April 22 looks good for us right now, what time works for you? We have a ~30 minutes presentation and can answer questions/chat after, but let me know if you'd prefer something specific.

Thanks again

Andrew

[EXTERNAL EMAIL: PLEASE BE CAUTIOUS]

Hi Andrew, sorry for the delay in getting back to you. I would be happy to set up a meeting (virtual at this time) to hear more about the proposed project. It looks like April 15, 16, 19, 22 or 23 could work for us. Let me know if any of those dates are workable for your team. Thanks, David

Subject: Introduction Presentation - Class VI CCS Project

Hello David,

My name is Andrew Bremner and I manage an energy & alternatives investment portfolio for a firm called JB Energy Partners out of Bakersfield, California (~\$350M assets under management). We are working hard on a couple of really great carbon capture & storage projects (Class VI permitting), and we are hoping to preview one of them for your team in the near future. We have previewed the project for CARB and CalGEM and have received great feedback (and encouragement to proceed). Do you have a few minutes for a phone call to discuss how we go about setting a meeting? Let me know at your convenience, thanks a lot.

Andrew Bremner
